

Legal Resources for Protecting Children's Bodily Integrity

Children's bodily integrity is a fundamental right.

EDUCATION • RESEARCH • NETWORKING • FUNDING • IMPACT

Medically unnecessary, nonconsensual genital cutting raises significant questions of bodily integrity, individual autonomy, equal protection, and children's rights. Sex-based legal disparities exist, leaving boys and intersex children without the protections enjoyed by girls.

Impact litigation may provide one avenue for addressing these disparities. Our non-profit provides free educational, research, networking and financial resources for legal professionals interested in this emerging area of law.

RESOURCES INCLUDE:

Attorney Education

A 90-minute program featuring attorneys David Llewellyn and Eric Clopper, with CLEs, a 53-page study guide, and certificate of completion.

Legal Research

A substantial library of peer-reviewed and other published materials addressing medical, ethical, constitutional, human-rights, and legal issues.

Cooperating Attorneys Network

A growing national network of attorneys interested in relevant litigation.

Litigation Grants

Financial assistance may be available to qualified plaintiffs and their attorneys pursuing impact litigation.

Quarterly Newsletter

Updates on relevant cases, developments, and events.
